

## 4R NUTRIENT STEWARDSHIP

OneUP™ liquid fertilizer promotes sustainability and supports 4R Nutrient Stewardship – a best management practice for fertilizer that's accepted worldwide – by applying the right source of nutrients at the right time in the right place and at the right rate.

BUSINESS'S  
BOTTOM LINE.**

## A BETTER NUTRIENT BLEND

Innovation has always been at the heart of the J.R. Simplot Company. And with our new high-grade OneUP™ liquid fertilizer, that commitment to constant improvement has been brought to a whole new level.

No other fertilizer on the market combines the same advanced technologies. OneUP™ is both a plant stimulant and soil builder, rich in low salt liquid and featuring advanced photosynthesis and nutrient uptake technologies. The proprietary nutrient blend will help producers boost yields – and profitability.

### ONEUP™ LIQUID FERTILIZER ADVANTAGES

- Highest organic acid load for greater nutrient absorption
- Potassium to support vital plant processes
- Compatible with potassium thiosulfate or ammonium thiosulfate without dilution
- Ability to use near the seed in early season, in-furrow applications
- One stop for soil and foliar application for added versatility
- Product includes no bacteria

### CLEAN SOLUBLE SOLUTION

The clean, soluble formulation blends well with other products, including pesticides and other liquid applications. And it features the smallest particle size of any fertilizer in its category, which helps prevent clogged nozzles.

Let us show you the difference that OneUP™ liquid fertilizer can make in your fields and to your bottom line.

### RESULTS AND VERSATILITY

OneUP™ liquid fertilizer produces stronger root systems, increased soil health, improved yield potential and boosted profits. And it does all of that by being one of the most easy-to-use, versatile formulations created.

Contact us today to learn more about how OneUP™ liquid fertilizer can help get the most out of every acre.
