

A DIFFERENCE YOU SEE.

Professional
lawncare operators and
landscapers know it is
difficult to achieve uniform
nutrient distribution in a granular
blend. Nitra King 21-2-4 with 2% iron
provides the agronomic benefits of multiple
nutrients in a high quality, homogeneous pellet
blend well suited for uniform applications.

**Nitra

10,500 sq./ft. per bag

21-2-4 (N-P-K) provides enough nitrogen to cover 10,500 square feet in 1 bag

Dual nitrogen fertilizer

Versatile formulation that uniquely combines ammoniacal and nitrate nitrogen in a fused granule

Added iron

Contains 2% iron for a rich, deep green color even in challenging growing conditions

QUICK GREEN-UP AND SUSTAINED NUTRIENT RESPONSE WITH ADDED IRON

Benefits for Turf and Landscape

Nitra King® 21-2-4 with 2% iron offers landscape and turf managers a high-performance, all-season fertilizer formulated with FUSN and added iron for green-up.

It provides:

- Uniform application and improved turf growth from homogeneous pellets
- Formulation covers 10,500 square feet per bag (at 1lb N/1000ft²)
- A cool-season fertilizer that works equally well all season long
- Virtually eliminates the unsightly staining of sidewalks
- High iron provides a quick green-up of turf and long-lasting deep green color

FUSN
Fused-Safe Nutrients™

SAFER AMMONIUM NITRATE DELIVERY

FUSN® is a safe, technologically advanced ammonium nitrate-based fertilizer. Simplot engineered a way to fuse ammonium nitrate with ammonium sulfate to produce a new fused molecule that is less detonable and better delivers nutrients to the plant. FUSN® is available in select BEST® nutrient products.
