

A BETTER SOURCE OF TURF NUTRITION

Now you can improve your turf with Simplot's FUSN®, the innovative ammonium nitrate-based fertilizer that reduces detonability by fusing ammonium nitrate with ammonium sulfate. With two forms of nitrogen plus essential sulfur, FUSN® improves plant nutrition and uptake. This pioneering fertilizer is delivered in uniform granules to balance the delivery of nitrogen and sulfur to the turf.

Innovative Formulation

- Fused sulfate-nitrate molecule of plant-available nitrogen that provides early and ongoing nitrogen supply.

Powerful Turf Nutrition

- Delivers nitrogen in both nitrate and ammonium forms, plus essential sulfur for turf health.

Improved Turf Health

- Rapid green-up and uniform nutrient distribution without triggering excessive top growth.

Effective Economics

- Strong return on investment in turf quality and operational efficiency.
